SHERIFF HARR

A discussion was held on the Highway 37/257 intersection. Commissioners, Sheriff Harr, and DOT Engineer Jay Peppel were present for the open discussion. Discussion was held on how the county can be proactive in the prevention of accidents at the intersection. Suggestions such as a stop light, flashing caution lights, no passing signage, speed limit reduction, message boards, and signs indicating slower traffic were discussed. With a hill being so close to the intersection turn, this makes it harder to implement things such as stop lights because of traffic backing up too far and vehicles traveling at a high speed over the hill and/or vehicles being able to see oncoming traffic when pulling out onto the highway. Traffic will continue to be monitored at this intersection where potentially more options will come to light, and continued discussion on safety measures will be discussed.
